Objectives

Confidence to work on any dynamic project, want to take any challenging project and have skilled in solving many real time problems. Team works or individual works I can adjust much co-operatively. I've a good quality to lead a group for any task. I prefer to work based on desktop applications or web applications. I've a well academic excellence in database management and web technology. I want to learn much any of components due to work with higher complex real time problems.

Academic Qualification

Exam Title	Group	Institute	Result	Pass. Year
Bachelor of Science in Software Engineering	BSSE	Noakhali Science & Technology University	CGPA: 3.55 out of 4	2022 (expected)
HSC	Science	Noakhali Govt. College	CGPA: 4.92 out of 5	2017
SSC	Science	Benodpur High School	CGPA: 5 out of 5	2015

Works Experience

- **Flappy Bird** [Desktop Application]
  Description : It is a game application. There has a bird and many bars which is dynamic and wall surrounded to a moving bird. The score will increased how long the bird'll alive, alive means that the bird will be moving without touching any bars or wall. If the bird crashed to any bars or touched wall, the game will be finished. There are three levels (low, medium, high) by complexity.
  Needed : Java.

- **NCR** [Web-based application]
  Description: This is aimed to facile course registration (online) for Noakhali Science and Technology University (NSTU). It has seven modules for education branch, chairman, course co-ordinator, section officer, hall provost, registrar and student. Section officers apply to education branch for course registration on behalf of their related department and after accepting request, students will able to fillup their form which is an automatic process. Student(s) only need to submit the form and then when co-ordinator, hall provost and chairman approved his/her form, the student will have to deposit fees to university bank account. Student can download his/her receipt by the application.
  Needed : PHP, JavaScript, MySQL, HTML, CSS, Bootstrap.

- **Eshop** [Web-based Application]
  Description: It's an e-commerce platform built for selling and buying materials through online. Any people with a valid email/phone can register themselves by providing email and a new username and a password. They'll be able to search any product by category or product name, and they can add to cart of their preferred items. They can change quantity or remove any item from the cart. Then they proceed their purchase by online payment (Bkash, Rocket, Nagad). Admin will check whether the purchase request is valid or not and if the request is valid, admin will approve the purchase request.
  Needed : PHP, JavaScript, MySQL, HTML, CSS, Bootstrap.

- **Lan chat and file sharing** [Web-based application]
  Description : It is aimed to communicate through our Institute of Information Technology (IIT) for sending file or information without using internet for con- confidentiality and integrity. Firstly, everyone in the institute have to register and they will log in through their username/email and password. They're able to chat in a group or privately with an individual. Anyone can send files and the receiver(s) able to download these file.
  Needed : Java, Jsp, Servlet, Tomcat library and MySQL.

Curricular Activities

- I've joined programming contest by CSTE Club, NSTU and our team ranked 7th position. [In 2019]
- I'm selected as an Examineer of Elite Club, Benodpur, Noakhhali. I am holding this position for three years. The motive of our club is organize competitive quiz contest to create interest to gain knowledge as we adorn (prizes) for winner contestant and the club targets for village students who're lagging behind.
- I am president of Sorosoti Puja Committee, Benodpur, Noakhali from 2018 to till. Through this i have earned leading power surprisingly.
